There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy. It is taken internally and acts through the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

I Guarantee Dodson's Liver Tone

Listen to me! Calomel sickens and you may lose a day's work. If bilious, constipated or headachy read my guarantee.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.
"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle

Pain

Here is a message to suffering women, from Mrs. Kathryn Edwards, of R. F. D. 4, Washington Court House, Ohio. "I am glad to tell, and have told many women, what I suffered before I knew of Cardui and the great benefit to be derived from this remedy. A few years ago I became practically helpless...."

The Woman's Tonic

"I was very weak," Mrs. Edwards goes on to say, "and could not stoop without suffering great pain.... Nothing seemed to help me until I heard of Cardui and began the use of it.... I gradually gained my strength.... I am now able to do all my work." If you need a tonic take Cardui. It is for women. It acts gently and reliably and will probably help you as it helped this lady.

WHY FARMER AND CITY MAN ARE SO MUCH AT VARIANCE

WITH GUARANTEED PRICE FOR WHEAT, AGRICULTURIST IS AT HEIGHT OF PROSPERITY.

JUDGED BY INDIVIDUALS

Ruralist and Urbanite Owe Same Duty to Support the Victory Liberty Loan.

They are telling this story in a corn belt section. Maybe it is true and maybe—well, here is the story:

There are a lot of Washington counties and maybe this was a Washington County farmer. He had not bought a dime's worth of W. S. S., nor a Liberty Bond. He paid no attention to the Red Cross, the Y. M. C. A. or the other war drives. He came into a store where he had long been a customer. He was better dressed than usual.

"Well," said the merchant, "I guess you had a big Christmas out home?" "No," said the farmer, instantly gloomy, "we didn't. The war and the high price of things and all sort of made things gloomy."

The merchant looked him over in astonishment.

"Why, that seems funny. It looks like of all the men I know that you were least handicapped. Weren't both your boys exempted on account of agricultural work? Aren't you getting more for wheat and cattle and hogs and corn than you ever got? You are getting 75 cents for eggs and 78 cents for butter. Where have you any right to kick? Surely not at buying Liberty Bonds?"

"Didn't buy any Liberty Bonds," said the other. "I haven't been held up for any of these money-grabbing stunts. I simply stood out. Let the city folks that start these things take care of them. They've had the farmer by the throat for years. Now it is our turn. I am going to make hay while the sun continues to shine."

He was not a representative farmer. But, unfortunately, there are some farmers who try to keep up and feed fat an ancient grudge against fellow Americans, city folks of their own blood. Are these men farmers first and Americans last? They are refusing to see that their welfare is tied up with the rest of the nation.

Victory Loan Is the Thumb Issue

The thumb is not as graceful, uniform and regular as the four fingers—but the dependability and the indispensability of the thumb needs no argument or defense. The other fingers are, more or less, of a family likeness. The thumb has a form and a function of its own—and quite related to the fingers. One has noticed the pitiable efforts of a man who has lost his thumb when he tries to do the simplest things like writing or wielding a hammer or buttoning his collar. The thumb stands off to itself—but the four tapering fingers, either of which might be spared better than the thumb, call on the odd member of the group when there is clenching, grasping, hitting to be done.

All the four Liberty Loan campaigns have been more or less alike. The Fifth stands off to itself, in date and in setting and situation altogether. Though different from the others, this Fifth is the most important of all. It is the grasp effort, the clinch drive, the smashing blow. As the thumb encloses the other fingers of the first for the determined drive, so this inclusive campaign is to be the solidifying, the perfecting effort of financial America in its endeavor to put over the momentum of wonderful resources in the world-campaign for right and rights.

The other campaigns were alike in that the danger of results which might follow failure spurred to action; the inspiration of the hope of good results which would be sure to come with the success vitalized the campaign; the enthusiasm of the fevered period, the bands and the flags—all that made the first four efforts successes. The thumb drive is a cold-blooded business proposition. It means a loyalty of patriotism which digs down cheerfully and comes up with the money to pay for what he has already been obtained and enjoyed in considerable measure. It is the test drive; it is the real crux of the trial of American fealty; it will reveal the fine Americans who, having subscribed their money for hope or pledged their coin from fear, now plank down the dollars from honest conviction.

The thumb drive is going to be the biggest and the most American of them all.

Your heirs will not be very happy when they open your Safe Deposit Box, especially if they find it stuffed with Tax Receipts—evidence of Lost Opportunities! But they will dilate with gratitude if they find a generous bundle of Liberty Bonds!

THIS LOAN IS THE LAST. LET'S FINISH IT FAST. VICTORY LIBERTY LOAN.

STATE HOSPITAL NO. 4

ELECTS OFFICERS

The Board of Managers of State Hospital No. 4 met at the institution last week, and re-organized by electing P. A. Benham of Boone Terre, president; Sam J. McMinn of Marble Hill, vice-president, and G. C. Vandover, secretary.

H. C. Bell, editor of the Potosi Independent, the new member, was present and participated in the deliberations of the meeting.

Conditions at the hospital are reported as ideal. The new training school for nurses has proven most valuable and beneficial.

Every kindness, courtesy and consideration is shown the patients, and harmony prevails in every department.

CHILD SAVED BY QUICK

ACTION OF NEGRO

Monday morning, while the Cotton Belt train was engaged in switching and making the curve near the ice plant, a small white child of a family by the name of Moore, sitting on the track, barely escaped being run over by the train. George Thompson, colored porter on the train, was on the front car, which was being pushed forward, and as soon as the child was seen signaled back to the conductor, Capt. W. S. Korn, who in turn signaled the Engineer, F. M. Buck. All breaks were applied but to no avail. Thompson seeing that the train could not be stopped, jumped from the moving train, ran and removed the child from the track, just in time to miss the front wheels of the car. Before the train had stopped it had passed the place where the child was sitting by half a car length. The presence of mind of Thompson is very commendable.—New Madrid Record.

Mrs. T. J. Trautmann left Saturday morning for Lutesville, where she will visit her sister for a short time.

Mary Katherine Gwin is reported as having the whooping cough.

The Order of the Bath.

A very youthful British tourist, arrived at an old-fashioned hostelry, had the imprudence to order a bath in his room for the next morning. Very early he was awakened by sounds of hammering somewhere overhead. Then followed much bumping on the stairs; evidently a large and cumbersome weight was being brought down. The noise ceased outside his own door, which flew open, and in staggered down two strong men bearing the big bath from the public bathroom, dismounted for his morning ablutions!

Four Special Advantages For Better Cultivation

With our John Deere Walking Cultivators you can easily and accurately regulate depth of cultivation—do the kind of work that most effectively destroys weeds and conserves moisture. These cultivators carry a simple, reliable depth-regulating device. Just a turn of a tail bolt regulates the depth—it's easy, quick and accurate.

An adjustable arch adapts these cultivators for different width of rows—permits a variation of 16 inches in tread of wheels.

A hugging device holds the rigs parallel with the row no matter how the shovels are set—does away with the tiresome work of keeping rigs from drifting to or from the row.

The lifting springs handle light or heavy rigs with the greatest ease. You will like the way they differ from the springs on any other walking cultivator.

You appreciate what these advantages mean toward accomplishing better cultivation more easily. Can you afford to do without them? Come in and investigate all of the advantages that make our John Deere Cultivators especially good bargains for you.

We can furnish these cultivators carrying the famous John Deere Method equipment—slip point hoof shovels and sweeps.

TENNESSEE CAN'T STOP OUR LEVEE WORK

Washington, April 21.—The Supreme Court has decided against Tennessee in the suit brought against the neighboring state of Arkansas and the board of directors of the St. Francois levee district, to prevent the maintaining, constructing and enlarging of levees for the reclamation of 17 millions of acres of Mississippi flood lands in Arkansas.

Tennessee officials claimed the building of higher levees on the Arkansas side of the Mississippi river would cause the river to flow from its natural channel and damage 3,000,000 acres of Tennessee land.

Owen Blair went to Caruthersville last night, to see his brother, who arrived home yesterday from France.
